### Sarah Skips.

For the past two days the officers have been industriously hunting Sarah Althea to compel her to submit the marriage certificate to the U. S. Circuit Court, but she cannot be found. The report is now generally circulated and believed that she left for the Sandwich Islands on Wednesday by the steamer Mariposa under an assumed name.

To the Incline, Hot Springs, Tahoe City, McKinney's, Tallac, Rolland's, arriving in Glenbrook at 1 P. M., connecting with Keyser & Elrod's stage. J. TODMAN, Captain.

### A Disgusted Democrat.

A Western man, taking the train for home at the Baltimore and Ohio depot in Washington the other day, is reported as saying: "It all comes along of this blanked, new-fangled mugwump game of penuckle, which the President plays. If it was straight poker, or even seven-up, I'd in for an office blank quick."

## LOCAL NOTES.

The rain is not over yet.

The decision in the Jones horse-case will be rendered today.

There is a big washout on the C. & C. which has delayed the trains.

Folsom & Dunn are selling oats, wheat and ground barley, at 2 1/2 cts. per pound, respectively.

Tomorrow being Easter Sunday, there will be a special musical programme at the Episcopal Church.

Eclipse Extra Dry is the only native Champagne equal to any imported, and but half the price.

For Banquets Dinners and Parties use Eclipse Extra Dry, it is equal to any and superior to most imported brands, and the only natural California champagne in the market.

Society circles at Salt Lake are very much amused that one of the belles of that city, on receiving an invitation to attend a "German" sent in her regrets, stating "she did not speak the language."

W. H. Chedie has added to his already large stock of drugs and chemicals, a full assortment of garden and field seeds, which can be had in quantities to suit. Call and examine.

The Mariposa mill, in Seven-mile Canyon, started up yesterday and will be kept running steadily until the remnant of the once large pile of tailings remaining on the ground has all been worked, which will occupy about two months.

Bob Apple, an old Comstocker, died recently in Naples, Italy, and bequeathed about \$60,000 to various friends and benevolent institutions. As his property only sizes up about half that amount the heirs will have to adopt the pro rata instead of the usual probate system.

The citizens of Sacramento are discussing the propriety of having pure water from the city instead of the sand-grit supply from the muddy Sacramento. Old timers kick against the change, they having become used to the old-style coffee-colored compound.

Pete Burke is reported sick and busted in Mt. Clemens, Michigan. He got \$40,000 for his sewer flusher patent from the City of Chicago about a year ago, but spread it around too rapidly to keep it long. An effort is being made by his Comstock friends to forward him temporary supplies.

A new society has started in New York called the "White Cross Association," and is composed of young men, who pledge themselves to absolute purity of life. Remembering that the good die young, the life insurance companies holding risks on these young men, had better begin to call in the policies.

The elegant, new and complete stock of Spring millinery at the Misses Calimberti's will be open to the inspection of the ladies of Carson and vicinity, commencing Monday, March 30th, at their new store, Adams House block, in the store formerly occupied by Swanson the tailor and next door to Livingston's Carson St. Ladies' and children's sun hats in endless variety.

There promises to be some music in the air if Sarah Althea is brought before Judge Sawyer's Court to show cause why she shall not be sent to the cooler for contempt. She has refused to produce the marriage contract, and the Court says it must be produced.

Piper, the Chicago expert, proposes to take particles of ink from different portions of it, and submit them to a chemical test. This test Sarah seems particularly anxious to avoid, which shows to most people that she lacks confidence in the document.

The April number of the Overland Monthly is out, and contains many excellent articles, among which are "The General Principals of Art and their Application to the Novel," by Joseph Liecutt; "Olive Orchards of the Riviera," by S. H. L. Byres; "Some Problems of the Congo" by George Morav; "An Old Imperial Residence, Castle Chapultepec in Mexico," by Wilhelm Zimmerman; "Observations in the Southern States," by A. B. Applegate; "The Story of an Adventurer," by G. F. H.; "The Oracle" by E. R. Sill; "John George" by Sol Sheridan; "Incidents of Regular Army Life in Time of Peace," by F. K. T., and many other interesting articles.

## THE PRESENT WETNESS.

Winter Comes Upon Us All in a Heap.

Carsonites who woke up about 5 o'clock yesterday morning, heard a watery patter from the eaves, which told of a gentle rain. A little later this changed to snow, and it came down direct from the clouds in flakes that seemed to fall like white leaves. There was a total absence of wind, and the mass came down as straight as a plumb line. The humidity of the atmosphere caused the original flakes to bunch, and some of these combination flakes were an inch across. It kept this heavy firing up until nearly noon, when the storm changed to finer snow, and then a Wintery rain.

Many fruit trees were in blossom and the buds were coming out on almost everything. These blossoms were soon pelted off by the snow or shrouded with it, and the trees looked as if they had suddenly become heavy cotton producers.

There was never a time when a storm was so badly needed as now. The uninterrupted open Winter and successive weeks of unseasonable sunshine, had rendered the ground almost in the condition one would expect to find it in August. The streams were running low, and on the prospects of a weather change the hopes of thousands in the State hung for weeks. The grass on the hills was the most backward ever known, and the mills along the Carson were getting ready to hang up their stamps, when the clouds responded to a long hard prayer for rain, and now the ranchers and miners are feeling in luck again.

### Disappointed.

The Bulletin says: One day last week the car "Adelina Patti" and the other boudoir cars in which the distinguished members of Mapleson's Opera Company travel, were thrown open to public inspection at the West Oakland railroad yards and several hundred visitors examined the cars. The porters made a placard containing a request to "Remember the Porters" and placed it over a pewter plate. Several parties of visitors passed through the cars, but not a cent was put on the plate. Finally one of the porters placed a quarter on the plate as a hint to future visitors. Soon after a large party were shown through the car. When he had finished his escort duty, the porter returned hurriedly to the place to find that his quarter had been taken and that the plate was empty.

### The Nine Worthies.

W. R. Hardin the sporting writer of New York, asserts that the pugilists of the world stand in the following order of greatness:

- 1—John L. Sullivan.
- 2—Charley Mitchell.
- 3—George Freyer.
- 4—Jack Burke.
- 5—Alf Greenfield.
- 6—Jake Killrain.
- 7—Paddy Ryan.
- 8—Dominick McCaffrey.
- 9—Mike Cleary.

No matter how many battles may be fought, how many may be lost or won, the above order, he does not think, will be materially changed.

### Cause of the Excitement.

Yesterday quite an excitement was caused near Mason's store by the gathering of a crowd of people which soon swelled to such proportions that there was every outward indication of a dog-fight. An investigation, however, showed that it was caused by a few Democrats gathering there to talk over Mint affairs and parcel out some appointments.

### A Beggar's Bow.

M. Meissonier, painter of pictures was out for a walk in Paris the other day, when an old beggar gravely bowed to him, by the way of soliciting alms. "I have no change," said Meissonier, feeling in his pocket and about to pass on. "Then, at least, return me my bow," replied the old man, which was no sooner said than done.—Exchange.

### Was Not Going to be Caught.

When Strong, the murderer was discovered hanging the prisoner who found him called to County Surveyor Bridges who was in the yard, that Strong had hanged himself, but he (Bridges) thinking it was an April fool hoax replied "if he is hanging comfortably, let him hang, if not cut him down."

## GENERAL GRANT.

His Condition Yesterday and Last Night.

NEW YORK, April 2.—At 10:30 A. M. this bulletin was issued: "The General is quite refreshed by his long sleep. He has taken nourishment twice since the last bulletin, and is now preparing for a bath. His pulse is good and the good condition of 6 o'clock continues."

At 10:45 ex-Senator Chaffee and Counselor Perrington left the house. They reported the General easy, and Mr. Chaffee said the improvement must be regarded as due to the patient's great constitution and indomitable pluck, but that the improvement could not be permanent.

3 P. M. General Grant is at this moment very comfortable. The uneasiness in his throat has been relieved by the remedies previously employed. He has taken his food regularly and well. The bath refreshed him.

### THE LATEST.

At 11 o'clock last night Grant was still alive, but his death was expected at any time during the night.

### The Central Pacific Stocks.

NEW YORK, April 2.—The Evening Post's financial article says: Central Pacific opened 2 per cent higher, at 31 1/2, and advanced rapidly to 33. There was some lively trading during the first half-hour, and the sudden advance was due largely to the covering of the short interest in it which had been upon the new issue of bonds made by the company. Another reason for the advance was the favorable construction giving the terms of the lease by the Southern Pacific Company guaranteeing a rental of \$1,200,000, or 2 per cent on the stock; but when it comes to be understood that this is the exact figure of the maximum amount required of the Central Pacific as a Sinking fund under the Thurman Act, it began to appear that there was nothing for the stockholders in the new arrangements, and part of the advance was lost.

### Significance of Recent Appointments.

NEW YORK, April 1.—The Mail and Express says: Taking the Pearson and Higgins appointments together, in connection with the Times' semi-official statement this morning, that by the Pearson act President must not be regarded as indicating that in other cases those opposed to the party of the President will either be appointed or retain office after the expiration of their terms, we can understand that the significance of Higgins' appointment is a thousand-fold greater than that of the exceptional and exceptionally-treated Pearson.

### Preferred Death to Work.

NEW YORK, April 3.—Minnie Gross, a bright looking girl, who says she is seventeen years old swallowed a teaspoonful of rat poison yesterday. She was sent to the New York Hospital, and will be well in a week. She lost her parents in San Francisco recently, and has been living for two weeks with her sister. They say that she was indignant on Monday, when she was told that she would have to work for a living.

### Blood-thirsty O'Donovan Rossa.

NEW YORK, April 3.—O'Donovan Rossa's paper yesterday had this paragraph: "For Ireland's freedom Irishmen must fight, and every English invader found on Irish soil must be slain. This Prince of Wales is going to Ireland as an invader. If the people will give him his deserts, it will be a proud day for Irishmen all over the world."

### U. S. Circuit Court Jurors.

The following persons have been summoned by United States Marshall Corbett to act as trial jurors at the United States Circuit Court, Judges Sawyer and Sabin presiding, at Carson, on Tuesday next, April 7, at 10 o'clock A.
